ABSTRACT

Shiberus Inu is the creature that is guarding the CryptoWorld against the strong hands of its creators. Having been created by multiple communities, the tri-headed beast is keeping the balance between what is good and what is bad.

Thus, the power of Shiberus Inu is coming from his adepts' community where the faith of a Marketing and Donations Wallet is dictated by said community. Much like all three heads, all adepts working towards the same goal by contributing into the bag, will help the Shiberus Inu quickly grow bigger and stronger. They can feed the canine with love (shilling) and/or pet it with ideas for growth and exposure.

From the depths of the underworld to the peaks of the highest mountains:

**Three heads, twice the strength, one goal:
Crypto Supremacy!**

VALUES

THE SOFT SPOT

We understand that VB has made a gesture of goodwill to those affected by what is currently happening in the world, but this must be the choice of a community, not just his. The Shiberus Inu team is creating a wallet for donations and will allow the community to decide, by vote, where the money raised will be redirected.

THE STRENGTHS

Shiberus Inu's power is generated by the loyalty of his followers and rewards his hodlers, giving back some of everyone's energy (2% redistribution from transactions). Shiberus Inu has come to life through a joint effort made by the one headed communities that wanted the powers of each combined in one strong creature

THE FUTURE GROWTH

It is the wish of the whole team that the power of Shiberus Inu be in the hands of its followers (community) fully, so we created a wallet for marketing purposes (5% of the supply will go to this wallet and the tokens will be distributed to influencers/marketing). Each ETH contribution of his followers will help the development of Shiberus Inu, which will grow faster and stronger until he reigns over the Crypto World.
